

# Progress Report 11/30

Happy Thanksgiving!

## Route Adjustments

- Changed a lot of the routes so that they adhere to REST standards

## Initial UI Rewrite

- Using Materialize and a few other things to make the site look really nice
  - Currently only the Landing page and Events page
- Moving from separate pages for login and registration to using a modal
- Using a new error handling and notification system
  - Toasts! just Materialize Magic
- User automatically signed in after registration

## Detailed Plans for the Remainder of the week

- It's in a spreadsheet
